PCT

NOTIFICATION OF ELECTION

(PCT Rule 61.2)

From the INTERNATIONAL BUREAU

To:

Commissioner
 US Department of Commerce
 United States Patent and Trademark
 Office, PCT
 2011 South Clark Place Room
 CP2/5C24
 Arlington, VA 22202
 ETATS-UNIS D'AMERIQUE
 in its capacity as elected Office

Date of mailing (day/month/year) 26 February 2001 (26.02.01)	
International application No. PCT/US00/15016	Applicant's or agent's file reference X-12437
International filing date (day/month/year) 08 June 2000 (08.06.00)	Priority date (day/month/year) 15 July 1999 (15.07.99)
Applicant CHEN, Shu, Hui et al	

1. The designated Office is hereby notified of its election made:

☒ in the demand filed with the International Preliminary Examining Authority on:

19 January 2001 (19.01.01)

☐ in a notice effecting later election filed with the International Bureau on:2. The election ☒ was☐ was not

made before the expiration of 19 months from the priority date or, where Rule 32 applies, within the time limit under Rule 32.2(b).

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. PCT/US00/15016

I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, pages:

1-3,5,7-50	as originally filed		
4,6	as received on	12/07/2001 with letter of	12/07/2001

Claims, No.:

1 (part),2 (part), 5 (part),6,7 (part), 12-16	as originally filed		
1 (part),2 (part), 3,4,5 (part),7 (part), 8-11	as received on	12/07/2001 with letter of	12/07/2001

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. PCT/US00/15016

- ☐ the description, pages:
☐ the claims, Nos.:
☐ the drawings, sheets:
5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)):
(Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.)
6. Additional observations, if necessary:

III. Non-establishment of opinion with regard to novelty, inventive step and industrial applicability

1. The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non-obvious), or to be industrially applicable have not been examined in respect of:
- ☐ the entire international application.
- ☒ claims Nos. 16 with respect to industrial applicability.

because:

- ☒ the said international application, or the said claims Nos. 16 with respect to industrial applicability relate to the following subject matter which does not require an international preliminary examination (*specify*):
see separate sheet
- ☐ the description, claims or drawings (*indicate particular elements below*) or said claims Nos. are so unclear that no meaningful opinion could be formed (*specify*):
- ☐ the claims, or said claims Nos. are so inadequately supported by the description that no meaningful opinion could be formed.
- ☐ no international search report has been established for the said claims Nos. .
2. A meaningful international preliminary examination cannot be carried out due to the failure of the nucleotide and/or amino acid sequence listing to comply with the standard provided for in Annex C of the Administrative Instructions:
- ☐ the written form has not been furnished or does not comply with the standard.
- ☐ the computer readable form has not been furnished or does not comply with the standard.

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step and industrial applicability; citations and explanations supporting such statement

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. PCT/US00/15016

1. Statement

Novelty (N)	Yes:	Claims	1-16
	No:	Claims	
Inventive step (IS)	Yes:	Claims	4,5,10,11
	No:	Claims	1-3,6-9,12-16
Industrial applicability (IA)	Yes:	Claims	1-15
	No:	Claims	

2. Citations and explanations
see separate sheet

VII. Certain defects in the international application

The following defects in the form or contents of the international application have been noted:
see separate sheet

VIII. Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:
see separate sheet

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/US00/15016

Re Item III

Non-establishment of opinion with regard to novelty, inventive step and industrial applicability

Claim 16 relates to subject-matter considered by this Authority to be covered by the provisions of Rule 67.1(iv) PCT. Consequently, no opinion will be formulated with respect to the industrial applicability of the subject-matter of this claim (Article 34(4)(a)(i) PCT).

Re Item V

Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

The following documents (D) are referred to in this communication; the numbering will be adhered to in the rest of the procedure:

D1:FEBS Letters, 355(1994), 96-100

D2:Bioorg.Med.Chem.Lett., 10(18), 2000, 2101-2105

I.NOVELTY

In view of the available prior art the claims 1-16 are considered to be novel under Art.33(2) PCT.

II.INVENTIVE STEP

- 1)The closest prior art is considered to be D1 disclosing pseudomycin analogs having antifungal activity.
- 2)The compounds of the present application differ from said prior art compounds essentially in the presence of some specified substituents on at least one of the amino acid residues Lys, Dab1 or Dab2. The resulting compounds exhibit less toxic side-effects.
- 3)The problem to be solved may therefore be considered to be the provision of pseudomycin analogs having less toxic side-effects.

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/US00/15016

4) In the prior art there was no indication or suggestion that the present substitution pattern would result in less toxic side-effects without being detrimental to the activity of the compounds. Consequently an inventive step can be acknowledged to those compounds which actually solve the problem posed.

5) However the present claims 1-3, 6-9 and 12 and the related claims 13-16 are encompassing compounds with a very broad substitution pattern in the side-chain. Having regard to said plethora of side-chain substituents it is considered to be very unlikely that all of said substituents result in active compounds, which actually can be illustrated by D2, disclosing side-chain residues having aromatic moieties which are encompassed by the present claims and which lack an acceptable activity (e.g., see Table I). Moreover said claims also encompass very short side-chains which also very unlikely can be considered to exhibit an acceptable activity.

Therefore in order to acknowledge an inventive step to said claims their scope should either have been restricted to the compounds demonstrated to be active or it should have been justified by additional experimental data. In the absence of both restriction and justification of scope said claims 1-3, 6-9 and 12 are considered to lack an inventive step under Art.33(3) PCT.

For the assessment of the present claim 16 on the question whether they are industrially applicable, no unified criteria exist in the PCT Contracting States. The patentability can also be dependent upon the formulation of the claims. The EPO, for example, does not recognize as industrially applicable the subject-matter of claims to the use of a compound in medical treatment, but may allow, however, claims to a known compound for first use in medical treatment and the use of such a compound for the manufacture of a medicament for a new medical treatment.

Re Item VII

Certain defects in the international application

In several positions in the description the application contains the expression "incorporated by reference". However the application should, regarding the essential features of the invention, be self-contained, that is, capable of being understood without

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/US00/15016

reference to any other document. Consequently said expression should have been deleted from the description and, if necessary, said subject-matter by reference should expressly have been incorporated into the description, subject to the restrictions under the Articles 19(2) and 34(2)(b) PCT (see PCT Guidelines CII, 4.17-4.18).

Re Item VIII

Certain observations on the international application

The claims 1-3 and 7-9 contain expressions like "aryl", "heteroaryl", "cycloheteroalkyl" and "alkoxy" without further definition, which renders the scope of said claims unclear under Art.6 PCT. In response the applicant has submitted that said definitions are present in the description and consequently the scope of the claims should be considered to be clear under Art.6 PCT.

However an independent claim should **clearly specify** all of the essential features needed to define the invention (PCT Guidelines C-III,4.1-4.7a). Moreover the expression "aryl" in the description is open-ended and undefined substitution is allowed in both aryl- and alkyl-based moieties. Hence this objection is maintained.

PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference X-12437	FOR FURTHER ACTION see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.	
International application No. PCT/US 00/ 15016	International filing date (day/month/year) 08/06/2000	(Earliest) Priority Date (day/month/year) 15/07/1999
Applicant ELI LILLY AND COMPANY et al.		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 4 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

- a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

- b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

contained in the international application in written form.

filed together with the international application in computer readable form.

furnished subsequently to this Authority in written form.

furnished subsequently to this Authority in computer readable form.

the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☒ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of Invention is lacking** (see Box II).

4. With regard to the title,

the text is approved as submitted by the applicant.

the text has been established by this Authority to read as follows:

5. With regard to the abstract,

the text is approved as submitted by the applicant.

the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the drawings to be published with the abstract is Figure No.

as suggested by the applicant.

because the applicant failed to suggest a figure.

because this figure better characterizes the invention.

None of the figures.

INTERNATIONAL SEARCH REPORT
